

# JURISDICTIONAL APPROACH IN INDONESIA: PROGRESS TO DATE

## What is Jurisdictional Approach?

Jurisdictional Approach (JA) is an approach designed to promote multi-stakeholders collaboration to achieve sustainable development goals throughout an administrative area.

JA key features:

- Covers whole administrative area (district, province, country)
- Multi-stakeholder collaboration facilitated by local governments
- Cross sectors and cross commodities

## Why sustainable commodities as entry points?

- High interest from local governments to explore sustainable commodities to address land use challenges and achieve SDGs
- Availability of legality and sustainability standards for various commodities in Indonesia
- Private sector's commitment to build sustainable supply chains
- Market access and/or premium prices for sustainable commodities traceable to plantations
- There are markets that open special access and / or provide premium prices for sustainable commodities that have a clear track trace to the plantation.

## JA Beneficiaries

### Smallholders, local and indigenous communities

- Land tenure secured
- Increased productivity and quality
- Access to markets for sustainable products
- Improve local competitiveness
- Disaster resilience as ecosystems are protected

### Local and national governments

- Availability of database
- Multi-stakeholder involvement in development plans
- Performance-based incentives
- Improved public services supported by healthy ecosystems
- Increased sustainable investments

### Private sector

- Guaranteed supply of sustainable commodities
- Ease of doing business for sustainable investments
- Engagement with multi stakeholders
- Reduced costs to address tenure conflicts

JA Enabling Pillars

## Sintang

District Head Regulation on Sustainable Sintang Action Plan  
Sintang Govt, CSF, local CSOs

## Seruyan

Mapping of Palm Oil Smallholders  
Seruyan Govt, INOBU, private sector

## East Kutai

Spatial Planning and Sustainable Plantations  
East Kutai Govt, GIZ SCOPP

## South Sumatra

Green Growth Road Map  
South Sumatra Govt, ICRAF, IDH

## East Kalimantan

Perda on Sustainable Plantations & HCV Areas Management  
East Kalimantan Govt, TNC

## West Papua

Palm Oil License Review  
West Papua Govt, KPK, EcoNusa, other CSOs

## Aceh Tamiang

Monitoring Replanting, Workers' Rights, Biodiversity  
Aceh Tamiang Govt, Earthworm

## Tapanuli Selatan

Sustainable Palm Oil Action Plan  
South Tapanuli Govt, CI, UNDP-SPOI

## Siak

Green Siak Road Map  
Coalition of Palm Oil Buyers  
Siak Govt, Sidagho Siak Coalition  
Siak and Pelelawan Govts, Proforest, Daemeter Consulting, Sodagho Siak, LTKL

## Pelalawan

Coalition of Palm Oil Buyers  
Siak and Pelelawan Govts, Proforest, Daemeter Consulting, Sodagho Siak, LTKL

## National Initiatives

- Sustainable Districts Association (Lingkar Temu Kabupaten Lestari, or LTKL) have been established with 11 members, namely Aceh Tamiang, Siak, Musi Banyuasin, Sintang, Sanggau, Sigi, Bone Bolango, Gorontalo, Rokan Hulu, Labuhan Batu Utara, and Batang Hari.
- Indonesia Sustainable Palm Oil Forums (FoKSBI), comprising representatives from government, private sector, and CSOs have been formed in Sintang, Pelalawan, and South Tapanuli Districts.
- Aceh, East Kalimantan, North Kalimantan, and West Kalimantan Provinces as members of Global Climate and Forests' Task Force have collaborated with CIFOR and EII to assess their progress.

District initiatives

Province initiatives

# WHAT TO WATCH OUT FOR

- The Food and Agriculture Directorate at the Ministry of National Development Planning (Bappenas), supported by development partners and CSOs, is planning to integrate JA and its elements, from the perspective of sustainable commodities, in the National Mid-Term Development Plan (RPJMN) 2020-2024. With active engagements of various stakeholders, JA is expected to assist in the development of effective programs at subnational levels and accelerate the implementation of RPJMN to achieve SDGs.
- Following the completion of a concept paper, Bappenas and partners also plan to develop a Norm, Standard, Guideline, and Criteria (NSPK) document to provide technical guidance for local governments in implementing JA to achieve sustainable agriculture and commodities.
- LTKL has developed the first version of Regional Competitiveness Framework (*Kerangka Daya Saing Daerah*, or KDS), which summarises requirements from various jurisdictional assessment frameworks including RSPO P&C, Verified Sourcing Area (VSA), Terpercaya, and Sustainable Landscape Rating Tool. In collaboration with local governments and in close consultation with the Ministry of Home Affairs and the National Team for Accelerated Poverty Reduction (TNP2K), LTKL is trialing the development of baseline data for the KDS indicators in Siak, Sintang, Musi Banyuasin, and Gorontalo districts. Results of the trial are expected to finetune and improve KDS as a voluntary reporting framework for LTKL members.

# HOW YOU CAN SUPPORT?
